

Xerox Partner Print Services

Improve cost management

Xerox Partner Print Services can help you streamline your company's print operations and reduce print and copy expenditures.

- **A single, predictable monthly bill** for all your output device fleet makes it easier to manage costs and assist in budget planning. Convert all or part of your output device fleet, be it leased or owned, to one single lease through Xerox leasing.
- **Supports real-world business environments.** Unlike most single-vendor print management solutions, we support both Xerox and non-Xerox equipment.
- **Single point of contact** for complete document production management increases efficiency and visibility.
- **Enhanced employee productivity**, thanks to increased uptime and the elimination of time-consuming processes such as meter reads and supplies ordering. Employees can concentrate on their work instead of managing the printer or copier.
